

**Advanced CNC Machining Inc.**  
Specializing in CNC turning and milling  
ISO 9002 Registered

5/1/2008

Dear Customer;

Advanced CNC Machining Inc has reviewed its manufacturing techniques, and can confirm that the following meet the EU mandate of July 1st 2006 for RoHS Compliance.

1. CNC manufacturing
2. Coolants used in CNC Manufacturing
3. Anodizing MIL-A-8625. Type I, II, III
4. Gold chromate(Alodyne)
5. Nickel Plating
6. Zinc clear chromate
7. Electro polishing
8. Passivation
9. Black Oxiding

Please note that currently Zinc Bronze Chromate is NOT a compliant process, and therefore we do not offer this service.

Sincerely,

ADVANCED CNC MACHINING INC.
